

Rental-Ready Tech Packages

Make every door bulletproof and hands-off — built for property managers.

OBX rentals live or die on guest reviews. Dead WiFi, a finicky lock, or no internet during a storm means 1-star reviews and 2 a.m. calls to you. We outfit each property with reliable internet (Starlink storm-backup), keypad locks with per-guest codes, whole-home WiFi, and exterior cameras — then keep it running. One vendor, one number, every door built to the same standard.

Priced per door · volume pricing for managed portfolios

Essentials

The floor every rental should clear

- › Keypad smart lock — per-guest codes, auto-expire at checkout
- › Business-grade gateway + WiFi access point
- › 1 exterior camera at the main entry
- › App setup, code scheme & handoff
- › 90-day workmanship warranty

Hardware	\$772
Flat install labor	\$527
Per door, installed	\$1,300
one-time · taxes extra	

MOST POPULAR

Plus

 - › **Starlink backup internet** — auto-failover in outages
 - › 3 cameras — entries + driveway
 - › Smart thermostat — remote control between guests
 - › **Whole-home WiFi (2 access points + switch)**
- | | |
|--------------------|---------|
| Hardware | \$2,252 |
| Flat install labor | \$1,282 |

Per door, installed	\$3,534
one-time · + Starlink service billed to owner	

Pro

Whole-home premium · max protection

- › Everything in Plus, roof-mounted Starlink
- › 5 cameras + video doorbell, full coverage
- › Wired backhaul, 3 access points
- › Full integration & commissioning day
- › Priority support standing

Hardware	\$3,335
Flat install labor	\$2,867
Per door, installed	\$6,202
one-time · + Starlink service billed to owner	

FEWER CALLS

Per-guest codes kill lockouts. Remote-managed WiFi means we fix it before the guest even notices.

BETTER REVIEWS

Fast WiFi everywhere + tech that just works = the 5-star basics guests now expect on the OBX.

ONE VENDOR

Every door built to the same standard. One install partner, one warranty, one number to call.

Keep it running — Managed Plan

Remote monitoring, firmware updates, guest-code management, priority support, and seasonal storm checks. This is how a portfolio stays hands-off year-round.

\$49–99/mo
per home · optional

Cameras exterior-only. Entries & driveways — never interior. Clearly disclosed for guest privacy & liability.

Cabling done right. Cat6 minimum, outdoor-rated where exposed, cleanly routed and labeled.

Secure by design. Separate guest WiFi, isolated camera/IoT network, remote management for fast support.

Hardware billed at cost + markup as a line item; install labor billed as flat fees — **transparent and itemized on every quote.**
