Single bar / small restaurant getting sound right

› Up to 2 zones of independent audio (e.g. dining + bar)

› Networked DSP — controllable, even coverage

› Background-music source & simple control

› Business-grade network foundation

› Staff training + handoff

1–2 zones · installed
\$3,500–7,500
+ hardware itemized · from ~\$1,800/zone

MOST VENUES START HERE

Bar + Sports AV

Multi-area venue with TVs, patio & events

› Everything in Core, 3–4 zones (dining, bar, patio, restrooms)

› Paging over music with auto-ducking

› Sports/AV switching — any game to any screen

› One-tap scenes: Open · Happy Hour · Live Music · Close

3–4 zones + AV · installed
› Scheduling (e.g. patio off at 10pm)
\$8,000–18,000
+ hardware itemized · most popular tier

Full Venue Control

Large / multi-space venue or new build

› 5+ zones, full Q-Sys-class control platform

› Live-music / stage sound integration

› Advanced AV: projection, event modes, multi-screen

› Custom control interface + full automation logic

› Remote monitoring built in

5+ zones · installed
\$20,000–50,000+
+ hardware itemized · scoped per venue

START HERE — PAID SITE ASSESSMENT

On-site design & scope visit

A walkthrough of your space, a zone-by-zone plan, equipment recommendations, and a firm itemized proposal. You get the plan whether or not you build with us. **The fee credits 100% toward your install** if you proceed — so for clients who move forward, the design is effectively free.

\$250–500
one-time · by venue size
100% credited to install

KEEP IT RUNNING — SUPPORT PLAN

Remote monitoring, firmware, scene tweaks, and priority local service so it stays reliable through a packed season.

From \$99–299/mo
by system size · optional · month-to-month

HOW WE PRICE

› Hardware & labor itemized separately on every quote — you see exactly what you're buying

› Design, programming & commissioning is the skilled line — it's what makes the system run itself

› Final price is scoped to your space; ranges above are typical installed totals

Pricing reflects mid-2026 estimates for planning only and is not a quote. Final pricing is set in the itemized proposal that follows your site assessment, and depends on zones, speaker density, control complexity, and existing infrastructure. Hardware costs confirmed at time of order.

Core Zoned Audio · Bar + Sports AV · Full Venue Control · paid assessment credited to install · optional support plan
